PROFESSIONAL PROFILE

Proactive and versatile Computer Science undergraduate combining deep technical acumen with strict operational discipline. As a full-stack developer and IT specialist, I have independently architected, designed, and deployed a multitude of cross-platform applications, demonstrating comprehensive full-cycle project management. Bilingual and highly adaptable, I offer a unique blend of web infrastructure management, AI prompt engineering, and complex digital media expertise. Dedicated to leveraging cutting-edge development stacks and rigorous problem-solving skills to drive efficiency, scale cloud infrastructures, and deliver high-impact technical solutions in dynamic environments.

SKILLS & EXPERTISE

WEB OPS & INFRA	AWS (EC2/S3), cPanel/WHM, Linux CLI, DNS (Cloudflare), Let's Encrypt SSL, Automated Backups.
DEVELOPMENT STACK	React.js, Node.js, PHP, Python, SQL (MySQL/MariaDB), HTML5/CSS3 (Tailwind), Flutter, Dart.
AI & OPTIMIZATION	Advanced Prompt Engineering, LLM Token Optimization, AI Systems Integration.
DIGITAL MARKETING	Technical SEO, Core Web Vitals, Schema Markup, GA4, GTM, Meta Pixel.
CONTENT & DESIGN	Premiere Pro, DaVinci Resolve, After Effects, Photoshop (High-precision Editing).
METHODOLOGIES	Agile/Scrum, Git/GitHub Workflow, Client Technical Support, Ticket Management.

TECHNICAL PROJECTS

Frenmot

- Developed a personalized French learning companion application.

Web App

Kaj - Task Reminder

- Engineered a cross-platform web and Android application featuring custom reminders and data syncing.

Flutter, Dart

Atmoxis

- Developed a production-quality weather web app focused on premium UX and atmospheric visuals.

React, Node.js

ScreenDusk

- Created a lightweight Windows desktop app applying a dimming overlay for privacy and low-light comfort.

Desktop App

3D Decision Maker

- Built an interactive 3D tool utilizing a cryptographically secure randomness lever mechanism.

HTML, CSS, JS

Classic Snake

- Designed a modern, highly-polished web implementation of the classic arcade game.

HTML5 Canvas, JS
